GET THE LOOK YOUR HOME DESERVES

If you're looking for the very best in high performance windows, doors and conservatories then look no further than Formula One.

Our thermally efficient profiles combined with high specification glazing to reduce heat loss, impressive security features to keep you safe, together with state-of-the-art manufacturing techniques all combine to provide a stylish product that is also kind to the environment.

There's no better way to improve the appearance, energy efficiency, security and comfort of your home than with Formula One windows, doors and conservatories.

Whether your home is contemporary, traditional or period in style, you'll find our range offers options to suit every taste and design. Our products will allow you to transform the look of your home with the added benefits of improved insulation and noise reduction together with the advantage of low maintenance.

You can relax, and enjoy home living, safe in the knowledge that in choosing Formula One you've made the perfect choice.

SELECT YOUR WINDOWS

We offer a range of window shapes and styles so you can be sure to find something that suits your needs.

There is a wide selection of different colour options on all windows to complement and transform your home together with choices on glazing and handles. See the following pages for more details:

WINDOWS OVERVIEW

If you're looking to replace your windows not only, do you want a choice of different designs and styles to consider but you also demand quality and performance in every aspect. Our windows at Formula One offer the very best solutions:

- All our frames are manufactured using high impact, high performance PVCu extruded to a defined European Standard of quality and consistency, covering aesthetic appearance, dimensions, colour fastness and strength of welds.
- All our windows can be manufactured to BS7412/ PAS24, the specification for PVC-U extruded profiles with heat welded corner joints.
- At the heart of the Formula One range is its energy efficiency credentials, achieving an 'A' grade energy rating with ease.
- Manufactured in accordance with ISO9001 (British Standards Quality Assurance System), security hardware conforms to PAS 24 (the specification for enhanced security performance) and our security enhanced windows are also passed by the official police security initiative Secured by Design.

Design highlights and benefits include:

- | | |
|---|---|
| 1. TRICKLE VENT
Compliance to building document F and tested in accordance with BS EN 1026 & BS EN 1027 weather performance. Independently acoustically tested in accordance with BS EN 20140 10, ISO 140-10. | 4. SEAL
Provides outstanding weather performance to BS 4255-1 & BPF 345/2. |
| 2. HINGE
Produced from stainless steel and offer excellent load bearing characteristics and meet the requirements of BS6375. | 5. HANDLE
All handles are die cast for strength and durability. |
| 3. GLAZING
Tested to BS EN1279-2& 3 / BS EN 12150. | 6. LOCKS
Police preferred specification Secured By Design and exceed the requirements BS EN 1670. |
| | 7. KEEPS
Police preferred specification Secured By Design and exceed the requirements BS EN 1670. |
| | 8. EXTERIOR PROFILE
High performance PVCu conforming to BS EN 12608. |
| | 9. INTERIOR PROFILE
Internally beaded, high performance PVCu conforming to BS EN 12608. |

CASEMENT

VERSATILE AND STYLISH
- OUR MOST POPULAR WINDOW CHOICE

Featuring outward-opening side or top hung vents, these windows are the most popular window type. With stylish looks, slim sightlines, excellent security and superior energy saving, our casement window configurations offer single, double or multiple fixed and opening lights to produce combination frames, including bay and bow windows.

Overview and Key Features:

- 'A' energy rating as standard
- Extensive choice of frame designs and casement opening configurations
- Available in solid colours and a variety of foiled finishes
- Range of handle colours to complement the finish of your windows
- Wide range of glass designs
- Excellent durability with minimal maintenance

FLUSH SASH CASEMENT

A STUNNING PERIOD LOOK
FOR MODERN AND TRADITIONAL
PROPERTIES ALIKE

Particularly suited to heritage homes, our new flush sash frames offer a stunning period look to both modern and traditional properties alike, fitting seamlessly into our existing range of frames to create stylish windows with an excellent energy rating.

Overview and Key Features:

- 'A' energy rating as standard
- Contemporary 70mm profile depth
- Available in a choice of coloured foil finishes including realistic wooden and aluminium-look finishes
- Flush fitting appearance to exterior of frames
- Wide range of glass designs
- Excellent durability with minimal maintenance

TILT & TURN

INWARD-OPENING WITH MAXIMUM VENTILATION FLEXIBILITY

Tilt and Turn windows let you fully open the frame inwards, for easy cleaning, or simply tilt inwards for ventilation and, because the frame opens fully, these windows can be used as a fire escape. Our Tilt and Turn windows include a special concealed gearing mechanism, eliminating the need for plastic clips that can fall off or get discoloured - making the cleaning process easier - and they can also be incorporated into bow and bay window configurations.

Overview and Key Features:

- 'A' energy rating as standard
- Extensive choice of frame designs and opening configurations
- Available in solid colours and a variety of foiled finishes
- Range of handle colours to complement the finish of your windows
- Wide range of glass designs
- Excellent durability with minimal maintenance

Images below show operation of Tilt & Turn windows.
Left: rotate handle 180 degrees to open window in 'Tilt' state.
Right: turn handle 90 degrees to fully open the window (to approx 90 degrees).

SASH HORN/ BAY/SHAPED

ALTERNATIVE WINDOW STYLES AND SHAPES - FOR MORE BESPOKE REQUIREMENTS

Sash Horn

Ornate box sash appearance with outward-opening top hung casement.

Sash horn windows provide an ornate box sash profile outside, but function as outward-opening top hung casement windows. An ideal alternative to vertical slider windows, sash horn windows offer casement opening flexibility whilst maintaining a traditional appearance - particularly useful when replacing timber sashes in period homes.

Bay windows

The traditional way to maximise light and space in a room.

Maximising the available glazed area, Bay and Bow windows increase the light entering a room by using three or more frames. Traditional bay windows follow a structural extension out from the building, creating a walk in 'bay' inside. When a building wall structure is flush, Bow windows use an underside support and roof canopy instead to support three to five window sections. Both styles offer single, double or multiple fixed and opening lights to produce combination frames.

Shaped windows

Made-to-fit windows in any shape or size.

Shaped replacement windows allow your home's original architectural features to be accentuated or preserved. For example, period properties requiring windows for arched or round openings, or angular apex windows at roof gable ends. We offer made-to-fit replacement windows in a vast range of styles, colours and finishes, enhancing any facade whilst providing excellent thermal performance.

DESIGN OPTIONS & ACCESSORIES

Whether it's a contemporary, classic or period property there are various options available to achieve the look, style and performance you want.

Colour options

Choose from our range of standard PVCu frame colours or explore our wide selection of special order colours and foil finishes. Frames can even be fabricated with different colours inside and outside. Other colours may be available so please ask to discuss colour options when looking to order your windows.

Standard Colours

Woodec Colours

Aludec Colours

Special order colours and foil finishes

Handles

A choice of die-cast ergonomic handles in various colours provides the perfect finishing touch. All handles are die cast for strength and durability and are available in a range of colours. The hard wearing and decorative surface finish is produced using advanced coating technology known as Physical Vapour Disposition (PVD), which offers improved levels of corrosion and scratch resistance. A full range of Marine finish handles are also available.

Monkey Tail handles are also available. Black, gold and chrome only.

Glazing

High efficiency units

Our standard glazing specification starts with affordable, efficient 'A' rated double-glazed units, whilst upgrade options offer the choice of higher energy efficiency and specialist glazing effects.

Textured glass

Our range of obscured glass offers you a selection of different patterned designs to add privacy, style or simply an attractive decorative feature.

Shown (right) are a selection of textures from our range.

We have 27 textures to choose from - please talk to your local installer for more information.

NOTE: colours shown here are for illustrative purposes only and may not be wholly accurate / representative of the final product so please ensure you ask to see a colour swatch before making a final decision. There may be some slight variation in colour if the same colour is requested inside and outside.

NOTE: Images shown may not accurately represent the final product.

SELECT YOUR DOORS

We offer a wide range of modern doors of various styles so you can be sure to find something that suits your needs.

There is a wide selection of different colour options on all doors to complement and transform your home together with choices on formats, glazing and handles. See the following pages for more details:

DOORS OVERVIEW

If you're looking to replace or upgrade your doors not only do you want a choice of different designs and styles to consider but you also demand quality and performance in every aspect. Our doors at Formula One offer the very best solutions, whether you are looking for stylish and secure front entrances or else transforming your home by maximising your living space and opening up your home to the garden outside:

- All our frames are manufactured using high impact, high performance PVCu extruded to a defined European Standard of quality and consistency, covering aesthetic appearance, dimensions, colour fastness and strength of welds.
- All our doors can be manufactured to BS7412/PAS24, the specification for PVC-U extruded profiles with heat welded corner joints.
- Manufactured in accordance with ISO9001 (British Standards Quality Assurance System), security hardware conforms to PAS 24 (the specification for enhanced security performance) and our security enhanced doors are also passed by the official police security initiative Secured by Design.

Design highlights and benefits include:

1. HINGES

Weight loading and restrictive to the performance requirements of PAS 24.

2. GLAZING

Tested to BS EN1279-2& 3 / BS EN 12150.

3. LOCKS

Multi point extra throw clawbolts and meet the performance requirements of PAS 24.

4. LOCKS

All handles are die cast for strength and durability and can be suited to match window handles and letterboxes.

NB: We also offer a Yale Marine finish handle and letterbox in gold and chrome with a 10 year surface guarantee for coastal regions. A door strengthened hinge guard is another optional extra.

5. PROFILE

Internally beaded, high performance PVCu conforming to BS EN 12608.

6. KEEPS

Police preferred specification Secure By Design and exceed the requirements of PAS 24.

COMPOSITE / PVCU PANEL / STABLE DOORS

A COLLECTION OF ENTRANCE DOORS TO SUIT EVERY TASTE AND DESIGN, WHATEVER THE STYLE OF YOUR HOME

Composite doors

Using modern high performance materials, our composite entrance doors faithfully replicate the traditional grained look of natural timber.

Unlike painted wood, the only maintenance needed is an occasional wipe with a damp cloth and a three-seal PVCu outer frame ensures excellent draught and sound-proofing.

PVCu panel doors

Stylish, affordable and secure, our PVCu doors come in a range of panel styles including glazing and side light options

They feature a high security multi-point locking with the option of inward or outward opening and both inner and outer panel PVCu skins are pressure-bonded to a fire and moisture-resistant core creating a robust, weatherproof unit.

Stable doors

The ability to open just the top half of the door- if you are concerned about the movement of young children or dogs.

For instant flexibility for any threshold our door panel has a double glazed pane with a wide choice of options. Stable tilt and turn windows go a step further; the top door panel can instead also tilt inwards, allowing ventilation to the room whilst maintaining security with the door closed.

There is a wide range of door styles and colours to choose from – including options on handles and glazing.

More information about the complete Formula One Entrance Door Collection.

Please ask to see our separate brochure.

BI-FOLD DOORS

THE ULTIMATE WAY TO
BRING THE OUTSIDE IN

The Formula One Range of bi-folding doors really give you the opportunity to maximise the space in your home and effectively bring the outside in. Exceptionally stylish, secure and energy efficient.

Formula One bi-folding doors are manufactured to your individual specification and come in a choice of colours and finishes with various options for handles and hinges.

They are extremely simple to use, unobtrusive and ideal for all homes. With configurations varying from 2 panels up to 7 there is an option to suit any type of property offering wide span door openings.

The added option of internal or external openings also means they can be installed in any number of locations throughout your property.

Overview and Key Features:

- A smooth finish powder coated aluminium product that is durable, strong and easy to operate
- Energy efficient
- Low threshold option available
- Exceptional security features as standard
- Multipoint locking mechanism as standard
- Available with 1 opening door feature for practicality
- Family friendly
- Supplied with 4 choices of colour outer frames as standard
- Additional colours are available upon request
- Manufactured to fit your bespoke specification
- Exceptional wind and weather performance

Formula One Bi-fold configurations

There is an extensive choice of configurations available - please ask for further details regarding options and suitability.

KEY

OTHER OPTIONS AVAILABLE

SLIDING PATIO DOORS

SPACE-SAVING ACCESS
TO A GARDEN OR PATIO

All of our sliding patio doors are bespoke to your requirements. Individually manufactured to your exact measurements and to a design of your choice.

Available in 2, 3 or 4 pane configurations. There are a range of colour options available for the frame in addition to a choice of handle styles and finishes. A low threshold option is also available, ideal for improved family friendly access.

Our sliding doors are extremely easy to use, lightweight in their operation and extremely resilient. Guaranteed for 10 years they won't fade, split, or warp and will withstand even the worst of the British weather conditions.

Overview and Key Features:

- Six point locking system for outstanding security
- Anti-bump lock cylinders
- Secured By Design achievable
- Internal sliding panels for added security
- Choice of handle colour
- Choice of colour finishes
- High performance 28mm glass as standard
- Concealed fixings
- Multi chamber sash for maximum thermal efficiency
- Insulated to help block out external noise
- Fully compliant with CE marking regulations

FRENCH DOORS

CLASSIC CONTINENTAL
ELEGANCE FOR ANY HOME

The ideal choice for affordable easy access to the garden, terrace or balcony, Formula One French doors maximise light and add continental elegance to any home.

Featuring two doors opening inwards or outwards, slim PVCu frames and no central mullion, access and views are unobstructed.

These doors also benefit from multi-point locking and internal reinforcement, thus enjoying the same high security levels as our other garden lifestyle products.

Overview and Key Features:

- Available in solid colours and a variety of foiled finishes
- Choice of door furniture
- Multi-point locking with anti-bump, anti-drill, anti-intruder key cylinder as an optional upgrade
- Excellent durability with minimal maintenance
- Accessible low threshold options

DESIGN OPTIONS & ACCESSORIES

Whichever style you select from our range of lifestyle doors there is a choice of colours and handles to complement your home.

Whether it's modern bi-folding doors, sliding patio doors or traditional French doors, our comprehensive range of products will allow you the freedom to really transform your home and maximise your space.

Choose from our range of standard frame colours or explore the wide selection of alternative colours and foil finishes available, depending on your choice of door. In some cases frames can even be fabricated with different colours inside and outside to complement your living space – please ask for details.

NOTE: Colours shown here are for illustrative purposes only and may not be wholly accurate / representative of the final product so please ensure you ask to see a colour swatch before making a final decision.

THE FORMULA ONE CONSERVATORY RANGE

DESIGNED FOR LIVING

You can add an extra dimension to your lifestyle by making the extra space many of us often dream of. From the classic Victorian style or the elegant Edwardian look, to the most exotic and unusual designs; The Formula One range of conservatories gives you complete freedom of choice to plan your ideal extension.

So, whether you are looking for a special place to entertain friends and family, a quiet corner to put your feet up and enjoy the garden or simply somewhere safe for the children to play, a Formula One conservatory will turn your dreams to reality.

TRANSFORM YOUR HOME

It's easy and affordable to extend the living space in your home with a Classic Formula One conservatory.

Built with 'A'-rated PVCu double-glazed windows and polycarbonate or glass glazing, our conservatories ensure all-year round use – reducing heat build-up in the summer and retaining the warmth in the winter. A range of architectural styles coupled with different footprint shapes ensures that your conservatory will complement your home and your garden space perfectly and, if you're looking for a more personal design, we can also offer a range of bespoke options.

In addition to standard glazed roofing we also offer high-performance tiled roofs, either on new conservatories or as a replacement roof, as the perfect alternative to help you transform your home.

- 'A' energy rated PVCu double-glazed windows as standard
- 25mm (standard) or optional 35mm polycarbonate roof
- Optional double glazed roof
- Insulated frames help block out external noise
- Choice of door furniture
- Multipoint locking with Anti Bump, Anti Drill and Anti Pick cylinder and a high security dimple cut blade key
- Excellent durability with minimal maintenance

CLASSIC CONSERVATORY

THE EASY, AFFORDABLE WAY
TO TRANSFORM YOUR HOME.

It's easy and affordable to extend the living space in your home with a Classic Formula One conservatory.

Built with 'A'-rated PVCu double-glazed windows and polycarbonate or glass glazing, our conservatories ensure all-year round use – reducing heat build-up in the summer & retaining the warmth in the winter. A range of architectural styles coupled with different footprint shapes ensures that your conservatory will complement your home and your garden space perfectly.

Overview and Key Features:

- 'A' energy rated PVCu double-glazed windows as standard
- 25mm (standard) or optional 35mm polycarbonate roof
- Optional double glazed roof
- Insulated frames help block out external noise
- Choice of door furniture
- Multi-point locking with anti-drill, anti-bump, anti-intruder key cylinder as an optional upgrade
- Excellent durability with minimal maintenance

Edwardian

Flat-fronted creating a large interior floor space with a double-hipped roof.

Lean-To

Single sloping roof descending directly from the house wall.

Bespoke

Combine styles to configure a custom-built design.

ORANGERIES

ORNAMENTAL DESIGN THAT
MAKES A STATEMENT.

Offering a more substantial structure than a Conservatory or Glass Extension Sunroom, the Formula One Orangery celebrates the scale and ornamentation of Renaissance architecture.

The hallmark tall Georgian-style windows that define Orangery design are our 'A'-rated PVCu double-glazed frames. Roofs options include the ability to incorporate dramatic glazed lanterns. Inside, a ceiling pelmet can accommodate lighting, whilst the outside gutter is usually hidden by an elegant decorative cornice.

Overview and Key Features:

- 'A' energy rated PVCu double-glazed windows as standard
- 25mm (standard) or optional 35mm polycarbonate roof
- Optional double glazed roof
- Insulated frames help block out external noise
- Choice of door furniture
- Multi-point locking with anti-drill, anti-bump, anti-intruder key cylinder as an optional upgrade
- Excellent durability with minimal maintenance

Contemporary Orangery

Offers maximum light, yet feels solid, warm and cosy even throughout the colder winter months.

Traditional Orangery

Effortlessly blends sturdy brick pillars, a high-performance glass roof, and an array of traditional finishing touches.

Lantern Orangery

Lantern roof light that gracefully sits upon a flat roof or deck, bathing your home in a mesmerizing influx of natural light.

REPLACEMENT ROOFING

REVOLUTIONISING CONSERVATORY & EXTENSION CONSTRUCTION

Looking to update and transform your existing conservatory? Our range of replacement conservatory roofs is the perfect solution.

With the latest technology and carefully designed options, you can add value to your home and enjoy a beautiful, light-filled room all year-round.

Choose from a range of thermally-efficient glass and solid roofs throughout, a mix of glass and solid panels, or a lightweight tiled solid roof for a more traditional finish. Our products have been extensively tested and designed to meet the latest performance, appearance, and durability standards.

High Thermal Performance

Our replacement roofs are designed for excellent thermal performance. With low U-values and advanced insulation, they help retain heat and create a comfortable living space. Whether you choose the Ultraframe Glass Roof, Livinroof, or Ultrarroof, you can enjoy energy efficiency and reduced heating costs.

Performance glass conservatory roof

Our Glass Conservatory Roof replacement is a tried and tested design that has been refined over 30 years.

Livinroof conservatory roof replacement

Ultraframe Livinroof is a unique replacement conservatory roof system that combines solid and glazed roofing seamlessly.

Ultrarroof tiled replacement conservatory roof

Ultraframe Ultrarroof is an advanced lightweight tiled solid roofing system that offers a charming, authentic tiled roof finish.

- Save weeks or months off build times
- Rapid connection technology
- Build in any weather
- Less mess and disruption

Please read more on our website or ask to see our separate brochure.

Glass & glazing options

GLASS PERFORMANCE SEE THE QUALITY IN OUR GLASS

Due to its impressive aesthetic appeal, increased sound insulation and ease of maintenance, glass is the popular choice for conservatory roofs. The glass units incorporate specialist coatings which enables the glass to help keep your conservatory cooler in summer (by reflecting excessive solar heat away) as well as warmer in winter (by deflecting heat from inside the home back into the property).

Our glass units also provide an easy clean capability which allows water to run off the glass taking most of the dirt and grime with it. In addition, our double glazed safety glass is guaranteed for 10 years.

	LIGHT TRANSMISSION The amount of light transmitted through the glass unit reduces glare from the sun.		UV PROTECTION Tinted glass reduces the effect of UV rays and helps protect furniture and fabrics from fading.
	SOLAR REJECTION This keeps your conservatory cooler in summer by reflecting away the sun's heat. However, if you have a North facing or shady site you may less want solar rejection.		U-VALUE Thermally efficient glass units will prevent heat loss to the outside keeping your conservatory warmer in winter.
	SELF CLEANING Our glass units are specially designed to remain cleaner for longer than conventional glass thanks to a transparent coating on the glass that harnesses the power of ultra-violet rays from the sun and rain (or water) to break down dirt then wash it away.		QUALITY AS STANDARD Manufactured in specialist roof glass factories, all our glass is toughened, double glazed safety glass and is guaranteed for 10 years.

GLAZING DESIGN OPTIONS CONSIDER THE FINISHING TOUCHES

The Ambience range has been crafted in collaboration with leading glass manufacturers, providing a wide selection of specialised glass options to suit diverse preferences. This range features various choices, including Ambi-Aqua, Ambi-Blue, Ambi-Neutral, Ambi-Bronze, Ambi-Max, and Ambi-Satin Privacy conservatory roof glass. Our glass offers a multitude of benefits, from minimising sun glare to providing exceptional strength that safeguards against leaks and damage from harsh conditions.

You can also explore an array of tint and glazing alternatives, including an ultra-dark tint, ideal for offices and entertainment spaces. Our Ambi-Neutral glass diminishes glare by 63% and boasts a neutral tone, making it perfect for a naturally appealing conservatory.

Whether you enjoy reading, writing, or watching TV in your conservatory, you can finally relax without worrying about straining your eyes or obstructing your view with blinds.
