PVCu ENTRANCE DOORS

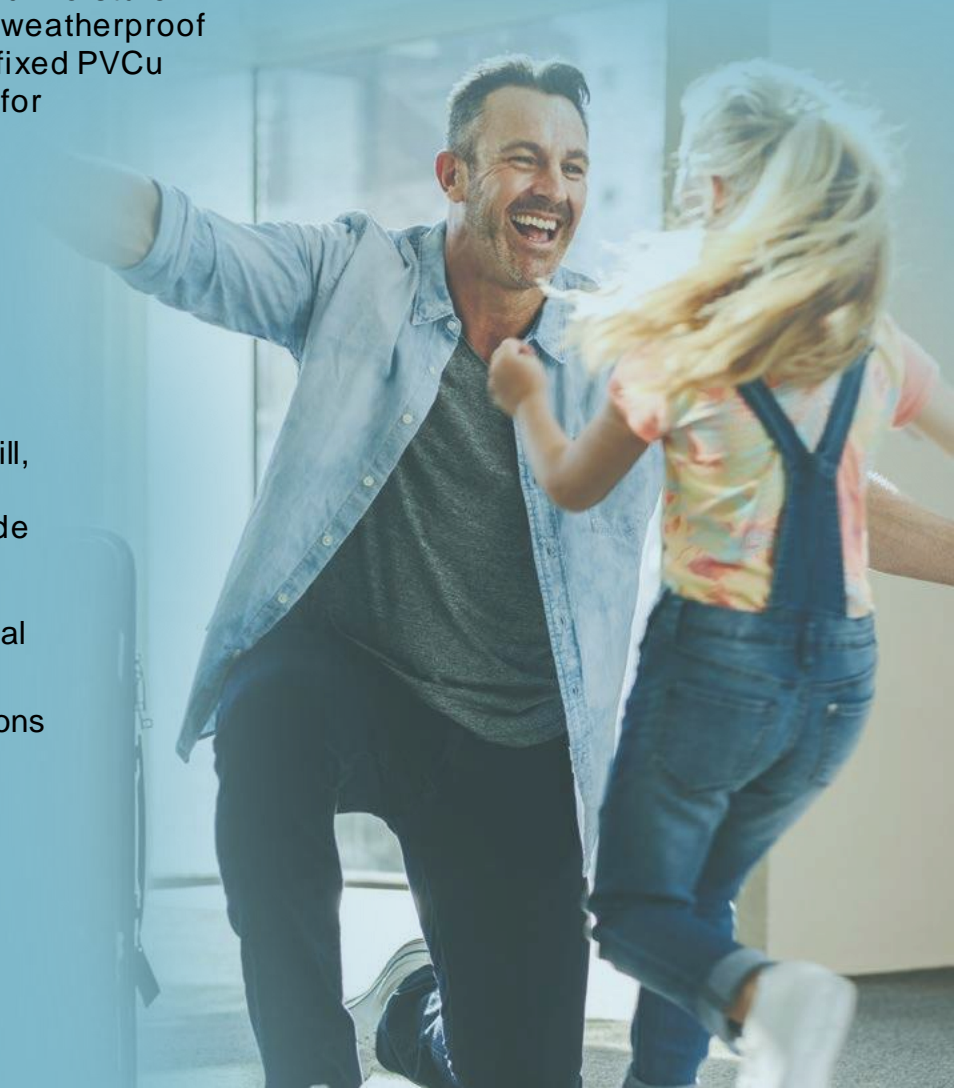

STYLISH, AFFORDABLE AND SECURE

Offering a wide range of panel styles including glazing and side light options, our affordable range of PVCu doors is hard to beat.

All door panels feature high security multi-point locking with the option of inward or outward opening. Both inner and outer panel PVCu skins are pressure-bonded to a fire and moisture-resistant core creating a robust, weatherproof unit. Complementary matching fixed PVCu panels with glazing are available for any door style or threshold.

Overview and Key Features:

- Glazing, side lights and dual colour panel options
- Available in solid colours and a variety of foiled finishes
- Multi-point locking with anti-drill, anti-bump, anti-intruder key cylinder as an optional upgrade
- Choice of door furniture
- Excellent durability with minimal maintenance
- Accessible low threshold options

COMPOSITE ENTRANCE DOORS

THE TRADITIONAL LOOK OF TIMBER WITHOUT THE MAINTENANCE.

Using modern high-performance materials, our composite entrance doors faithfully replicate the traditional grained look of natural timber.

Unlike painted wood, the only maintenance needed is an occasional wipe with a damp cloth. A three-seal PVCu outer frame ensures excellent draught and sound proofing. Composite doors are available in five standard colours, with a white finish on the inside as well as 8 premium colours or they can be specified in any RAL colour (Additional cost and extended leadtime). Complementary matching fixed panels with glazing are available for any door style or threshold.

Overview and Key Features:

- Glazing, side lights and dual colour panel options
- Available in solid colours and a variety of foiled finishes
- Choice of doorfurniture
- Multi-point locking with anti-drill, anti-bump, anti-intruder key cylinder as an optional upgrade
- Excellent durability with minimal maintenance
- Accessible low threshold options

DESIGN OPTIONS & ACCESSORIES

Whether your property is contemporary, classic or period, The Formula One range of Composite doors make it easy to achieve the look you want thanks to a choice of colour finishes and accessories.

COLOURS AND OPTIONS TO SUIT ANY TASTE OR STYLE

A wide choice of colours

Choose from our range of 16 colours shown below for our composite doors. These are all produced with a realistic woodgrain finish as standard which, unlike wood, is guaranteed not to crack, peel or fade. This allows you to create the warmth that wood offers without the worry of maintenance.

Side panels

Some of our doors are available with matching side panels for when you have more space to fill and want to make a real statement at the entrance to your property.

Edwardian 4 door with Edwardian 2 side panel

York door with York side panel

Door handles

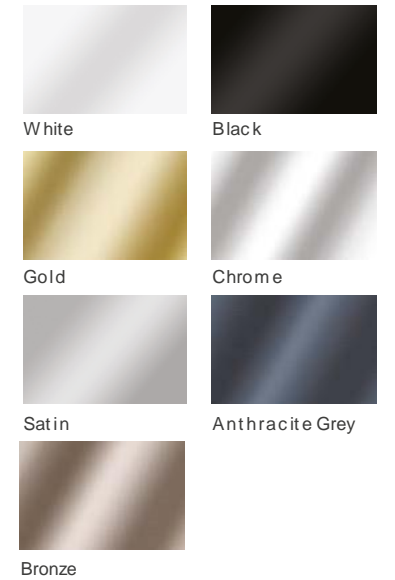

Our die-cast ergonomic door handles provide the perfect finishing touch to your door. Many of our handles are available in a range of different colours to complement your door. Please ask for details.

Standard lever handle

Contemporary pull handle

Urn door knockers and letterplates

Our range of elegant door knockers perfectly match your door handle and letterplate. The standard urn door knocker is also available with a built-in spyhole for as an added security feature.

Standard urn knocker

Urn knocker with spyhole

Slim urn knocker with spyhole

Chrome letterplate

Black letterplate

NOTE: colours shown here are for illustrative purposes only and may not be wholly accurate / representative of the final product so please ensure you ask to see a colour swatch before making a final decision.

STABLE DOORS

Stable doors offer the ability to open just the top half of the door – ideal if you are concerned about the movement of young children or dogs.

Overview and Key Features:

- Glazing, side lights and dual colour panel options
- Available in solid colours and a variety of foiled finishes
- Choice of door furniture
- Multi-point locking with anti-drill, anti-bump, anti-intruder key cylinder as an optional upgrade
- Excellent durability with minimal maintenance
- Accessible low threshold options

Flexibility for any threshold

The top door panel has a double glazed pane with a wide choice of options. Stable tilt and turn windows go as deep as 100mm; the top door panel can instead also tilt inwards, allowing ventilation to the room whilst maintaining security with the door closed.

NB. A variety of styles are available. Please ask for more details.

THE EASY,
AFFORDABLE WAY
TO TRANSFORM
THE FRONT OF
YOUR HOME

GET IN TOUCH TODAY

The company reserves the right to change the product range without prior notice. Variations in colour and patterns do occur to those illustrated due to manufacturing and printing limitations.

PVCu Infill Door Panels as illustrated in this brochure may not appear exactly the same in every case when fitted. This brochure has been compiled using an average opening width for demonstration only.

The area of panel, which is visible around the raised and fielded sections, is determined by the actual brickwork opening on your particular property. Wider openings will produce more of a border than a narrow aperture – likewise a narrow opening will have less visible border.

The majority of composite doors are white outside frame, however, please be advised that outside frame foiling colours may differ to the door sash/slab as the manufacturing process is a different technique.
